

## Regional Presence, Global Reach

- Support in English and Spanish
- Delivery from the U.S., Mexico, and South America
- Operations across North America, LATAM, and Europe
- Certified experts in SAP S/4HANA, FIORI, ABAP, SAP BTP, Azure, and AWS

## Service Models

Model	Ideal For	Key Benefits
Dedicated	Large-scale or critical operations	Full-time assigned team, high responsiveness, direct control.
Shared	SMEs or non-critical operations	Cost-effective, agile, SLA-based support.
Hybrid	Mixed operations	Dedicated support for key processes + shared model for others.

## Public & Private Cloud Expertise

Whether you're running **SAP S/4HANA Public Cloud** or **Private Cloud Edition**, our AMS team is ready to support your business with tailored services for each landscape.

Edition	What We Offer
Public Cloud	Support aligned with SAP's standard scope and upgrade cycles. Incident resolution, key user enablement, and proactive guidance to ensure compliance with best practices.
Private Cloud	Full-stack support across infrastructure, Basis, functional modules, and custom developments. Greater flexibility for process enhancements and system extensions.

- Seamless collaboration with SAP support teams
- Deep understanding of RISE with SAP and clean core strategy
- Experience with multinational deployments across both editions

With Nexton, you don't have to choose between innovation and control — we help you get the best of both worlds.

### Meet Your AMS Team

At Nexton, we build long-term partnerships. We don't just resolve incidents —we transform how you manage and evolve your SAP ecosystem.
